Author Index

The index includes authors of Special (Signed) Articles, Nutrition Classics, Clinical Nutrition Cases, Letters to the Editor, Responses to Letters to the Editor, Special Reports, authors mentioned in the Recent Books section. A prefix indicating the type of contribution may precede the page number, as follows:

B: Recent Book
CL: Nutrition Classic
LE: Letter to the Editor
NC: Clinical Nutrition Case
R: Response
SA: Special Signed Article
SR: Special Report

Abadi, P, CL204
Abdulla, M, B350
Al-Naqeeb, N, B350
Al-Sayer, H, B350
Albertazzi, C, CL268, CL269
Andronis, PT, NC16
Arellano, E, CL268, CL269
Asmal, AC, CL338
Atkinson, RL, NC49

Baker, EM, CL71
Becker, W, B349
Belfiore, F, B351
Bray, GA, SA33
Butterfield, WJH, CL338
Butterworth, RF, B350

Carlin, A, NC179
Childs, B, B349
Coles, GA, B349
Collier, SB, NC235
Cunnane, S, LE225

Dashti, H, B350
Davies, M, B349
DeMeo, MT, NC112
Di Toro, R, B350
Drujan, BD, B350
Dwyer, JT, NC332

Efstathion, A, NC332
Elvehjem, CA, CL233

Faradji, B, CL204
Field, JO, SR144
Finkler, AE, CL13
Fishbein, L, B349
Forbes, GB, CL109

Gallagher, N, CL141
Gallup, J, CL109
Garn, SM, CL176
Gaull, GE, B350
Graff, J, CL141

Hall, CA, CL13
Harper, AE, CL233
Haussler, MR, CL302
Helsing, E, B349
Heymsfield, SB, SA97
Himes, JH, B349
Hodges, RE, CL71
Hood, J, CL71
Hursh, JB, CL109

Ismail-Beigi, F, CL204

Karamanos, B, CL338
Kehayias, JJ, SA163
Klein, GL, SR74
Kotsonis, FN, B350
Kushner, RF, NC16

Macdonald, I, B350
Mackey, MA, B350
March, SC, CL71
Martin del Rio, R, B351
Martin, DL, B351
Mata, LJ, CL268, CL269
Matthews, DM, B350
Mayer, J, CL46
Mobarhan, S, NC112, SA129
Molinatti, GM, B351
Myrtle, JF, CL302

Narkin, A, CL141
National Institutes of Health, SR227
Nolan, P, Jr, CL176
Norman, AW, CL302

Padh, H, SA65
Palmer, C, NC332
Papas, A, NC332
Pasantes-Morales, H, B351
Pellecer, O, CL268, CL269
Pollitt, E, B350

Ramsey, DJ, B351
Reaven, GM, B351
Reinhold, JG, CL204
Rohmann, CG, CL176
Rosenberg, IH, SA367
Roth, DA, B351
Roubenoff, R, SA163

Sarkar, B, B350
Sauberlich, HE, CL71
Seedman, DA, CL141
Shain, W, B351
Simopoulos, AP, B349
Stare, FJ, B349

Tillotson, JE, SR273
Topping, DL, SA195
Truchot, JP, B349
Trumbore, LS, SA129

Urrutia, JJ, CL268, CL269

Van De Graaff, W, NC112
van Gelder, NM, B350

Waki, M, SA97
Waler, WA, NC235
Walker, WA, NC179, NC235
Wallingford, JC, SA323
Williams, JD, B349
Winitz, M, CL141
Wolf, G, SA1

Yetley, EA, SA323

Zeitlin, M, SA259

Subject Index

A letter prefix to the page number indicates the type of article:

CL: Nutrition Classic
LE: Letter to the Editor
NC: Clinical Nutrition Case
SA: Special (Signed) Article
SR: Special Report

An entry without a prefix is a Brief Critical Review.

ABDOMINAL AREA
  fat deposition in, 84
ADIPOCYTE MEMBRANE
  fatty acid composition of, 82
ADRENAL STEROIDS
  obesity and, SA33
AFRICA
  famine detection and response in, SA144
AGING
  bone loss and, CL176
  lean body mass depletion during, SA163
  postprandial clearance of retinyl esters from circulation and, 116
  role in reduction of intestinal and skeletal receptors for vitamin D, 189
ALBUMIN
  effect on copper accumulation by hepatocytes and fibroblasts, 123
ALUMINUM
  content in parenteral solutions, SA74
  influence of tea on bioavailability of, 287
α-AMIDATION
  of neuropeptides by ascorbate, SA65
AMINO ACIDS (*see also* BRANCHED CHAIN AMINO ACIDS, ESSENTIAL AMINO ACIDS)
  enteral formulas containing, SA129
  nutrition and balance of, CL233
  role in neural control of feeding, 239
ANIMALS
  simple-stomached, fungal phytase improves bioavailability of plant phosphorus in, 207
ANTIBIOTICS
  role in development of vitamin K deficiency, CL179
ANTIOXIDANTS
  role of vitamin C as, SA65
  ASCORBIC ACID (*see also* VITAMIN C)
  cellular concentration levels of, 27
  experimental human scurvy and metabolism of, CL71
  stereospecificity of L and D isomers of, 26
ASTRONAUTS
  chemical diets as nutrition for, CL141
BASAL METABOLIC RATE
  in lactating women, 209
BETA-3 AGONISTS
  role in treating obesity, SA33
BIRTH WEIGHT
  correlation of adult blood pressure with, 160
BLOOD PRESSURE
  correlation of birth and placental weights with, 160
BLOOD SUGAR LEVELS
  effect of food intake, CL46
BODY COMPOSITION
  compartmental models of, SA163
  elemental analysis of, SA163
  multicompartment chemical models of, SA97
BODY DENSITY
  as compartment in body composition chemical model, SA97
BODY HABITUS
  apple vs. pear, metabolic basis for, 84
BODY MASS INDEX
  used to study obesity in twins, 21
BONE
  cortical, effect of calcium supplementation on loss of, in postmenopausal women, 184
  disease, aluminum content of parenteral solutions as cause of, SA74
  fractures, increase in rate of, 24
  loss
    aging and, CL176
    in postmenopausal women, effect of calcium supplementation on, 184
    role of genetics in similarity of, 187
  mass
    aging and loss of, CL176
    role of genetics in similarity of, 187
  mineral density, effect of calcium intake on, 184
BOOK NOTICES
  Adventures in Nutrition, by FJ Stare. Christopher Publishing House. 349
  Animal Nutrition and Transport Processes, volumes I and II, J Mellinger and JP Truchot, Editors. Karger. 349

Anthropometric Assessment of Nutritional Status, JH Himes, Editor. Wiley-Liss. 349
Biological Effects of Dietary Restriction, L. Fishbein, Editor. Springer-Verlag. 349
CAPD: Host Defense, Nutrition and Ultrafiltration, GA Coles, M. Davies, and JD Williams, Editors. Karger. 349
Food and Health Data: Their Use in Nutrition Policy-Making, W. Becker and E. Helsing, Editors. WHO Regional Publications. 349.
Genetic Variation and Nutrition, World Review of Nutrition and Dietetics, AP Simonpoulos and B Childs, Editors. Karger. 349
Infantile Nutrition—An Update, R Di Toro, Editor. Karger. 350
Malnutrition and Infection in the Classroom, E Pollitt. UNESCO. 350
(Mal) Nutrition and the Infant Brain, NM van Gelder, RF Butterworth, and BD Drujan. Wiley-Liss. 350
Metabolism of Minerals and Trace Elements in Human Disease, M. Abdulla, H. Dashti, B Sarkar, H Al-Sayer, and N Al-Naqeeb, Editors. Smith-Gordon and Co. 350
Monitoring Dietary Intakes, I Macdonald, Editor. Springer-Verlag. 350
Nutrition in the '90s: Current Controversies and Analysis, GE Gaull, FN Kotsonis, and MA Mackey, Editors. Marcel Dekker. 350
Protein Absorption: Development and Present State of the Subject, DM Matthews. Wiley-Liss. 350
Taurine: Functional Neurochemistry, Physiology, and Cardiology, H Pasantes-Morales, DL Martin, W Shain, RM del Rio, Editors. 351
The Second Annual (1990) Supplement to Agriculture Handbook No. 8, "Composition of Foods: Raw, Processed, Prepared," by Nutrition Monitoring Division of US Dept. of Agriculture. US GPO. 349
Thirst: Physiological and Psychological Aspects, DJ Ramsey and DA Roth, Editors. Springer-Verlag. 351
Tissue-Specific Metabolic Alterations in Diabetes, F Belfiore, GM Molinatti, and GM Reaven, Editors. Karger. 351
BOVINE SOMATOTROPIN
safety of milk from cows treated by, SR227
BRAIN
differential regulation of calcium-binding proteins in, 191
role as controller in nutrient balance model, SA33
BRANCHED CHAIN AMINO ACIDS
disease-specific enteral feeding formulas containing, SA129
BREAST MILK *see* MILK, HUMAN

CAFFEINE
chromosomal damage in mice and consumption of, 285
CALCITRIOL
increase in intestinal and skeletal receptors for vitamin D caused by, 189
CALCIUM
dietary fiber intake and decreased absorption of, CL204
effect of prolactin on renal reabsorption of, 320
manganese utilization in chicks and availability of, 125
supplementation, effect on bone loss in postmenopausal women, 184
transport, effect of vitamin D on, 306
vitamin D metabolites and intestinal absorption of CL302
CALCIUM BINDING PROTEINS
expression of, 191
CALCIUM CARBONATE
maintenance of bone density in postmenopausal women by, 184
CALCIUM CITRATE MALATE
maintenance of bone density in postmenopausal women by, 184
CALORIC INTAKE
effect on patient with compromised respiratory status, NC112
CANCER
nitrosation of tetra-β-carbolines and, 379
oral, nutritional support in treatment of, NC332
CARBOHYDRATES
conversion to fat of, 376
malabsorption in HIV-infected children, 341
CARBON 14
as label of ascorbic acid in experimental human scurvy study, CL71
CARNITINE
role in metabolism and utilization of medium-chain fatty acids, 243
β-CAROTENE
absorption of components of, by the elderly, 116
CASEIN
as source of aluminum in parenteral solutions, SA74
effect on serum cholesterol in high- and low-cholesterol diets, 121

CELL CULTURE MODELS
study of endothelial cell transport by, 241
CELL TRANSPORT
role in stereospecificity of vitamin C, 26
CELLULAR RETINOIC ACID BINDING PROTEINS
retinol transport by, 218
review of, SA1
CELLULAR RETINOL BINDING PROTEINS
retinol transport by, 218
review of, SA1
CHEMICAL DIETS
as source of nutrition for astronauts, CL141
CHEMICAL MODELS
multicompartment, of body composition, SA97
CHICKS
excess phosphorus impairs manganese utilization of, 125
regulation of calcium-binding proteins in intestine, kidney, and brain of, 191
CHILDREN
health and nutritional status of, 156
HIV-infected, carbohydrate malabsorption in, 341
influence of recurrent infections on nutrition and growth of, CL269
positive deviance in nutrition of, SA259
stunted and/or wasted, dental caries in and nutritional status of, 158
CHOLECALCIFEROL (see VITAMIN D_3)
CHOLECYSTOKININ
food intake inhibition and, SA33
CHOLESTEROL
mixed-fiber diet and metabolism of, 80
prevention of renal tubular lesions in diabetic rats with diet high in, 60
CHOLINE
survival of leukemic mice given supplements of, 30
CHRONIC DISEASES
diet, nutrition, and prevention of, SR291
lean body mass depletion in, SA163
CLINICAL NUTRITION CASES
"Massive Obesity: Complications and Treatment," NC49
"Nutritional Support in Treatment of Oral Carcinomas," NC332
"Orderly Dieting and Disordered Eating: A Case Report," NC16
"Parenteral Protein-Sparing Modified Fast in an Obese Adolescent with Prader-Willi Syndrome," NC235
"Rapid Development of Vitamin K Deficiency in an Adolescent Boy Receiving Total Parenteral Nutrition Following Bone Marrow Transplantation," NC179
"The Hazards of Hypercaloric Nutritional Support in Respiratory Disease," NC112
COLLAGEN SYNTHESIS
role of vitamin C in, SA65
stereospecificity effect of vitamin C on, 26
COLON
fermentation of soluble-fiber polysaccharides by, SA195
CONTROLLED SYSTEM
role in nutrient balance model, SA33
COPPER
hepatocyte uptake of, 123
role in delta-9 desaturation of long-chain fatty acids, LE225
CORONARY HEART DISEASE
food health claims, and, SA323
effect of omega-3 fatty acid on, SA323
lifestyle change as treatment for, 250
population, dietary patterns and, SR291
CORTICOTROPIN-RELEASING HORMONE AGONISTS
role in treating obesity, SA33
COWS
effect of recombinant bovine somatotropin on milk and meat from, SR227
CYTOSOLIC RETINOL
role in transport and metabolism of retinoids, SA1

DEHYDROEPIANDROSTERONE
responses of female obese rats to, 280
DENTAL CARIES
nutritional status of stunted and/or wasted children and, 158
radiation therapy for oral carcinoma as cause of, NC332
DEOXYRIBONUCLEIC ACID
complementary, for type 1 iodothyronine deiodinase, 247
DEVELOPING COUNTRIES
diet, nutrition, and prevention of chronic disease in, SR291
famine in, SA144
influence of recurrent infections on nutrition and growth of children in, CL269
positive deviance in children's nutrition in, SA259
DIABETES MELLITUS
complication in massive obesity, CL49
high dietary cholesterol diet and, 60
non-insulin-dependent, lipogenesis in obese patients with, 255
renal disease and, 60

DIARRHEA
complication of enteral feeding, SA129
dietary intake of infants with, 211
3,4-DIDEHYDRORETINOIC ACID
role in tissue differentiation by vitamin A, 22
DIET
chemical, composition of, CL141
infants', acute diarrheal disease and, 211
low-fat, lowering cholesterol with, 315
mixed-fiber, cholesterol metabolism and, 80
nutrition, prevention of chronic diseases and, SR291
study of different fatty acids in, 57
DIETARY ASSESSMENT
videotape versus recall methods of, 346
DIETARY FAT
effect on fatty acid composition of adipocyte membrane phospholipids, 82
DIETARY FIBER (*see also* SOLUBLE FIBER)
decreased mineral bioavailability and intake of, CL204
effect on excretion of fecal bile acid, 80
effect on serum cholesterol level, 80
DIETARY INTAKE
selenium content in toenails as reflection of, 28
DIETARY PROTEIN
effect on serum cholesterol, 121
DIETING
eating disorders and, NC16
1,25-DIHYDROXYVITAMIN D
effect of aging on receptors of, 189
effect on calcium transport and intracellular concentration, 306
1,25-DIHYDROXYVITAMIN D_3
effect on calcium transport and intracellular concentration, 306
osteocalcin gene promoter stimulated by, 308
DOUBLY LABELED WATER TECHNIQUE
energy output measured by, 215
DRUGS
as therapy for obesity, SA33
DUAL PHOTON ABSORPTIOMETRY
role in development of multicompartment body composition chemical models, SA97

EATING DISORDERS
orderly dieting and, NC16
ELDERLY
insulin resistance in, 257
nutrient intake of, 346
processing of dietary retinoids in, 116
EMBRYOGENESIS
role of retinoic acid, CRBP, and CRABP in, SA1
ENCEPHALOPATHY
aluminum content of parenteral solutions as cause of, SA74
ENDOTHELINS
as vasopressive factor in endothelial cells, 241
ENERGY
acute diarrheal disease in infants and dietary intake of, 211
doubly labeled water technique to measure output of, 215
errors in reporting intake of, 215
expenditure and dissipation of, 54
milk production and expenditure of, 209
ENERGY INTAKE
oxidant defense and restriction of, 278
variability of dissipating excess, 54
ENTERAL FEEDING
clinical perspective on recent advances of, SA129
of heart-lung transplant patient with respiratory disease, NC112
secondary malnutrition from antitumor therapy treated by, NC332
ENZYMES
vitamin C as stimulant of, SA65
ERYTHROCYTES
folate deficiency and increase of micronuclei in, 285
ESSENTIAL AMINO ACIDS
enteral feeding formulas containing, SA129
ESTERIFICATION
of retinol by CRBP, SA1
ETHANE PRODUCTION
effect of dietary restriction on, 278

FAMINE
issues involved in, SA144
FAT
absorption modified by soluble fiber, SA195
as part of body composition, techniques for estimating, SA97
comparison of Mexican-American, African-American, and white children with respect to, 156
enteral feeding formulas high in, SA129
gain, regionality of, 54
in vivo study of abdominal vs. femoral deposition of, 84
FAT-FREE BODY MASS
factor in body composition compartment models, SA97, SA163
FATTY ACID COMPOSITION
of diet and diabetic rat adipocyte membrane phospholipids, 82

FATTY ACIDS (*see also* OMEGA FATTY ACIDS, OMEGA-3 FATTY ACIDS, POLYUNSATURATED FATTY ACIDS, SATURATED FATTY ACIDS, *trans*-FATTY ACIDS)
conversion of carbohydrates to, 376
long-chain, role of iron and copper in delta-9 desaturation of, LE225
medium-chain, role of carnitine in metabolism and utilization of, 243
nonstarch polysaccharide action in large bowel effected by, SA195
FECAL BILE ACID
effect of mixed-fiber diet on, 80
FEEDBACK MODEL
of nutrient regulation as treatment for obesity, SA33
FEEDING BEHAVIOR
depressed by amino acid analogue norleucine, 239
FEEDING TUBES
complications of insertion and prolonged use of, SA129
FEMORAL AREA
fat deposition in, 84
FERMENTABLE FIBERS
vitamin B_{12} deficiency and, 119
FIBROBLASTS
accumulation of copper by, 123
FISH OILS
as source of omega-3 fatty acids, SA323
effect on LDL, HDL, and serum cholesterol, SA323
FISH PROTEIN
effect on serum cholesterol in high- and low-cholesterol diets, 121
FOLATE DEFICIENCY
cytogenetic damage in mice and, 285
pregnancy outcome and, 314
FOOD
energy-dense versus nutrient-dense, SR291
health claims regulations of labeling of, SA323
labeling of, SR273
tetra-β-carbolines in, 379
use in enteral feeding formulas, SA129
FOOD GROUPING
according to saturated and unsaturated fat content, 57
FOOD INTAKE
depressed by amino acid analogue norleucine, 239
glucostatic theory of regulation of, CL46
intra- and interindividual variations in estimations of, 252
nutrient balance approach to control of, SA33
FORMULAS
comparison of enteral feeding, SA129

GASTRIC BYPASS
treatment for massive obesity, CL49
GASTROPLASTY
treatment for massive obesity, CL49
GENE EXPRESSION
for oxidant defense enzymes, effect of caloric restriction on, 278
in leukemic mice, lipotrope supplementation and suppression of, 30
GENETICS
role in obesity, 21
role in similarity of bone measurements, 187
GEOGRAPHY
selenium content of toenails correlated with, 28
GLOMERULOSCLEROSIS
diabetes and, 60
GLUCOCORTICOID RECEPTOR ANTAGONISTS
role in treating obesity, SA33
GLUCOSE
effect of aging on tolerance of, 257
high P/S diet and increased rate of transport of, 82
peripheral uptake of endogenous insulin and, CL338
GLUCOSTATIC THEORY
food intake regulation and, CL46
GLUTATHIONE PEROXIDASE
role of selenium in function of, 62
GLYCOSAMINOGLYCANS
vitamin A deficiency and reduction in urine of, 249
GROWTH
child, influence of recurrent infections on, CL269
effect of malabsorption in HIV-infected children, 341
GROWTH HORMONE
agonists, role in treating obesity, SA33
role of zinc in binding to prolactin receptor protein of, 381

HDL CHOLESTEROL
effect of low-fat diet and lovastatin on, 315
effect of *trans*-fatty acid on, 57
in nonhuman primates, effect of dietary saturated fatty acids on, 277
HEART-LUNG TRANSPLANTATION
hazards of hypercaloric feeding after, NC112

HEPATOCYTES
copper accumulation by, 123
from fasted obese subjects, de novo fatty acid synthesis by, 255
HISPANIC HEALTH AND NUTRITION EXAMINATION SURVEY (HHANES)
review of, 156
HIV INFECTION
of children, carbohydrate malabsorption in, 341
HUMAN SERUM ALBUMIN
aluminum content of parenteral solutions of, SA74
3-HYDROXY-3-METHYLGLUTARYL COENZYME A REDUCTASE
LDL cholesterol regulation by inhibitor of, 153
HYPERCALORIC FEEDING
respiratory disease and hazards of, NC112
HYPERTENSION
complication in massive obesity, CL49
prenatal origin of, 160

INDIA
famine detection and response in, SA144
INFANTS
acute diarrheal disease and dietary intake of, 211
behavioral and birth weight consequences of pyridoxine deficiency in, 312
premature, aluminum content of parenteral solutions as risk to, SA74
INFLAMMATORY BOWEL DISEASE
intravenous nutrition as treatment for malnutrition in, 317
INSULIN
binding, in diabetic rats, effect of high P/S diet on, 82
obesity and, SA33
peripheral uptake of glucose and, CL338
resistance by the elderly to, 257
INTERPHOTORECEPTOR RETINOL-BINDING PROTEIN
role in retinol transport between pigment epithelium and photoreceptors, SA1
INTESTINE
bacteria, role in vitamin B_{12} deficiency, 119
differential regulation of calcium-binding proteins in, 191
vitamin D receptors in, 189
INTRACELLULAR GLUCOSE OXIDATION
high P/S diet and increased rate of, 82
IRON
influence of tea on bioavailability of, 287
modulation of transferrin gene by, 221
placental transferrin receptor expression regulated by maternal serum levels of, 345
role in delta-9 desaturation of long-chain fatty acids, LE225
role of transferrin receptor in cellular uptake of, 343
IRON DEFICIENCY
effect on aluminum absorption, 287

JUN-FOS
cell proliferation factors, inhibition of osteocalcin gene transcription by, 308

KIDNEY
differential regulation of calcium-binding proteins in, 191

LACTATION
postprandial thermogenesis during, 209
LDL CHOLESTEROL
coenzyme reductase inhibition leads to up-regulation of, 153
effect of low-fat diet and lovastatin on, 315
effect on *trans*-fatty acid on, 57
in nonhuman primates, effect of dietary saturated fatty acids on, 277
LEAN BODY MASS
of obese and nonobese trauma patients, 213
whole-body potassium as index of, CL109
LETTERS TO THE EDITOR
Cunnane, S, LE225
LIPOGENESIS
in obese patients with non-insulin-dependent diabetes mellitus, 255
LIPOPROTEIN LIPASE
lipid uptake by adipose tissue regulated by, 84
LIPOTROPES
role in process of carcinogenesis, 30
role in regulation of gene expression, 30
LIVER
conversion of carbohydrates to fat in, 376
increased expression of LDL receptors and enzyme activity of, 153
role in copper homeostasis, 123
selenoproteins in, 62
uptake of retinol-binding protein by, 218
use of vitamin A and development of, 309
LONG-CHAIN FATTY ACIDS *see* FATTY ACIDS
LOVASTATIN
LDL cholesterol regulation by, 153
lowering cholesterol with, 315

MAGNESIUM
dietary fiber intake and decreased absorption of, CL204
MALNUTRITION
delay of dental caries in children with, 158
famine in relation to, SA144
in inflammatory bowel disease, intravenous nutrition as treatment for, 317
starvation-induced, lean body mass depletion and, SA163
MANGANESE
excess phosphorus and utilization of, 125
METACARPAL BONE
aging and radiographic analysis of, CL176
METAL IONS
role of ascorbic acid in reduction of, SA65
METHIONINE
survival of leukemic mice given supplements of, 30
METHYLMALONATE
effect of fermentable fibers on excretion of, 119
vitamin B_{12} deficiency and excretion of, 119
MICE
folate deficiency, parenteral caffeine, and cytogenetic damage in, 285
iron modulation of transferrin gene in, 221
MICRONUTRIENT DEFICIENCY
enteral feeding and, SA129
MILK
bovine somatotropin and safety of, SR227
human
acute diarrheal disease in infants consuming, 211
postprandial metabolic rate and nitrogen content of, 209
MINERAL
as part of body composition, techniques for estimating, SA97
MITOCHONDRIAL RESPIRATION
dehydroepiandrosterone and increase in, 280
MORPHOGEN
3,4-didehydroretinoic acid as, 22
role in chick embryo limb bud development, SA1
MOTHERS
consequences of pyridoxine deficiency in, 312
transferrin receptor regulation and iron stores in, 345
MUSCLE MASS
lean body mass and, SA163

NEOMYCIN
effect on methylmalonate excretion of vitamin B_{12}-deficient rats, 119
NEUROPEPTIDE Y ANTAGONISTS
role in treating obesity, SA33
NEUROPEPTIDES
role of ascorbate in α-amidation of, SA65
NEUROTRANSMITTERS
role in controlling food intake, SA33
NEUTRON ACTIVATION ANALYSIS
role in development of multicompartment body composition chemical models, SA97
NEUTROPHILS
ascorbic acid levels in, 27
NITROUS OXIDE
as endothelium-derived relaxing factor generated by endothelial cells, 241
NOREPINEPHRINE
role of ascorbate in biosynthesis of, SA65
NORLEUCINE
food intake and feeding behavior depressed by, 239
NUTRIENT BALANCE MODEL
obesity treated by, SA33
NUTRIENTS
in enteral feeding formulas, SA129
intra- and interindividual variations in intake of, 252
partitioning, role in treatment of obesity, SA33
WHO study group's recommended goals of, SR291
NUTRITION
amino acid balance in, CL233
chemical diets as source of, for astronauts, CL141
child
influence of recurrent infections on, CL269
positive deviance of, SA259
diet, prevention of chronic diseases and, SR291
food labeling and, SR269
intravenous, as treatment for malnutrition in inflammatory bowel disease, 317
maternal and prenatal, role in adult hypertension, 160
role of milk in, SR227
role in famine, SA144
role in treatment of oral carcinoma, NC332
role in vascular biology, 241
NUTRITION CLASSICS
Asmal, AC, Cox, BD, Butterfield, WJH, and Karamanos, B: "The Peripheral Uptake of Glucose and Endogenous Insulin," CL338

Erratum, 353
Meeting Announcements
A Decade of Experience with Clinical Nutrition Research Units: Achievements and Opportunities, 128
American Society for Clinical Nutrition: Seventh Postgraduate Course: Diet in Prevention and Treatment of Chronic Disease, 128
First International Congress on Vitamins and Biofactors in Life Sciences, 128
International Conference Series on Research in Human Cancer, 128
Nutrition and Aging, 128
PGs, Leukotrienes and Lipxins '91: Eleventh International Washington Spring Symposium, 128
Symposium on Advances in Regulation of Carbohydrate Metabolism, 128
Third Toronto Workshop on Essential Fatty Acids: Alpha-Linolenic Acid in Human Nutrition, 128
Well-Controlled Studies of Diet and Lipid Metabolism in Humans, 194
Workshop on Dietary Fiber: Nutritional Function in Health and Disease, 128
New United States Nutrition Monitoring Bill, 223

OBESITY
defective glucose uptake and insulin resistance in, CL338
disorder of lean and fat mass metabolism in, 213
feedback model as treatment for, SA33
glucostatic theory of food intake regulation and, CL46
Lipogenesis in diabetes and, 255
massive, complications and treatment of, CL49
protein-sparing modified fast used to treat, NC235
role of genetics in, 21
role of nurturing in, 21
study of dehydroepiandrosterone as agent against, 280
OLEIC ACID
serum cholesterol levels and, 57
OMEGA FATTY ACIDS
enteral feeding formulas containing, SA129
OMEGA-3 FATTY ACIDS
effect on coronary heart disease, SA323
food health claims and, SA323
OPIOID PEPTIDE ANTAGONISTS
role in treating obesity, SA33
OSTEOCALCIN GENE
transcription, role of vitamins A and D in, 308
OSTEOPOROSIS
role of reduced calcitriol receptors with age in development of, 189
OVERFEEDING
variation in weight gain with, 54
OXIDANT DEFENSE
energy intake restriction and, 278

PARENCHYMAL CELLS
receptors for retinol-binding protein, 218
PARENTERAL NUTRITION
as treatment for obese adolescent with Prader-Willi syndrome, NC235
PARENTERAL SOLUTIONS
aluminum content of, SA74
PECTIN
role in vitamin B_{12} deficiency, 119

PERCUTANEOUS ENDOSCOPIC GASTROSTOMY (PEG)
access to gastrointestinal tract for chronic tube feeding by, SA129
PEROSIS
manganese deficiency and, 125
PHOSPHORUS
dietary fiber intake and decreased absorption of, CL204
fungal phytase improves bioavailability of, 207
impairment of manganese utilization by, 125
posttranscriptional effects on calcium-binding protein synthesis exerted by, 191
PHYSICAL ACTIVITY
as energy dissipating mechanism, 54
PHYTASE
bioavailability of plant phosphorus to simple-stomached animals and activity of, 207
PLACENTAL WEIGHT
correlation of adult blood pressure with, 160
PLASMA CHOLESTEROL
effect of soluble-fiber polysaccharides on, SA195
in nonhuman primates, effect of dietary saturated fatty acids on metabolism of, 277
role of HMG-CoA reductase inhibitor on decreasing levels of, 153
POLYSACCHARIDES
soluble-fiber, effects on plasma cholesterol and colonic fermentation, SA195
POLYUNSATURATED FATTY ACIDS
food groupings according to content of, 57
POLYUNSATURATED/SATURATED FATTY ACID RATIO
fatty acid composition of membrane phospholipids altered by diet with high, 82
plasma cholesterol levels and variations in, 277
POLULATION APPROACH
to diet-related chronic diseases, SR291
POSITIVE DEVIANCE
in child nutrition, SA259
POSTMENOPAUSAL WOMEN
calcium supplementation and bone loss in, 184
POSTPRANDIAL METABOLIC RATE
milk nitrogen content and, 209
POTASSIUM-40
role in estimation of total body fat, CL109
PRADER-WILLI SYNDROME
protein-sparing modified fast as treatment for obese adolescent with, NC235
PRAVASTATIN
effect on cholesterol biosynthesis, 153
PROLACTIN
effect on renal calcium reabsorption, 320
receptor protein, role of zinc in binding of human growth hormone to, 381
PROTEIN
as part of body composition, techniques for estimating, SA97
copper binding, in hepatocytes, 123
respiratory disease and hazards of high intake of, NC112
PYRIDOXINE DEFICIENCY (*see* VITAMIN B_6 DEFICIENCY)

RABBITS
effect of casein and soy protein on serum cholesterol of, 121
RADIOGRAPHY
role in bone loss studies, CL176
RATS
diabetic
effect of high cholesterol diet in, 60
insulin binding in, 82
effect of aging on intestinal and skeletal vitamin D receptors in, 189
effect of caloric restriction on gene expression in liver of, 278
effect of tea on iron and aluminum bioavailability in, 287
folate deficiency and pregnancy outcome in, 314
obese, response to dehydroepiandrosterone, 280
study of hyperprolactenemia in, 320
vitamin A-deficient, mechanism of urolithiasis in, 249
vitamin B_{12}-deficient, methylmalonate excretion of, 119
RECOMMENDED DIETARY ALLOWANCE
for vitamin C, CL71
RENAL DISEASE
diabetes and, 60
high dietary cholesterol prevents, 60
REPRODUCTIVE TRACT
retinoid-binding proteins of, SA1
RESPIRATORY DISEASE
hazards of hypercaloric nutritional support in, NC112
RETINALDEHYDE
binding of, SA1
RETINOIC ACID
binding of, SA1
ingestionof all-*trans*-retinyl palmitate and blood levels of, 283

RETINOIC ACID RECEPTORS
role in gene transcription, SA1
RETINOIC ACID-BINDING PROTEINS
role in transport and metabolism of retinoids, SA1
RETINOID-BINDING PROTEINS
role in transport and metabolism of retinoids, SA1
RETINOIDS
transport and metabolism of, SA1
RETINOL (*see* VITAMIN A)
RETINOL-BINDING PROTEIN
cell-surface receptors for, 218
RETINYL ESTERS
postprandial clearance of, by older vs. younger patients, 116
RETINYL PALMITATE
all-*trans*, blood level of retinoic acid and oral ingestion of, 283

SATURATED FATTY ACIDS
effect on cholesterol metabolism in nonhuman primates, 277
food groupings according to content of, 57
SCURVY
metabolism of ascorbic acid in experimental human, CL71
SEAFOOD
illness from and safety of, SR369
SELENIUM
thyroid hormone activity and status of, 247
toenail content and dietary intake of, 28
SELENIUM DEFICIENCY
glutathione peroxidase labeling and, 62
SELENIUM UPTAKE
selenoproteins and, 62
SELENOPROTEINS
presence in type 1 iodothyronine deiodinase, 247
specificity of selenium uptake by, 62
SERUM CALCIUM
posttranscriptional effects on calcium-binding protein synthesis exerted by, 191
SERUM CHOLESTEROL
effect of high dietary cholesterol diet fed diabetic rats on, 60
effect of mixed-fiber diet on, 80
effect of soy protein and casein on, 121
trans-fatty acids and increased levels of, 57
SHORT-CHAIN FATTY ACIDS (*see* FATTY ACIDS)
SKINFOLD THICKNESS
compared with fat content determined by potassium-40 measurements, CL109

SLEEP APNEA
complication in massive obesity, CL49
SMALL INTESTINE
enteral tube feeding and, SA129
SOLUBLE FIBER
large-bowel fermentation of, SA195
plasma reduction by, SA195
SOY PROTEIN
effect on serum cholesterol in high- and low-cholesterol diets, 121
SPECIAL (SIGNED) ARTICLES
Bray, GA: "Treatment for Obesity: A Nutrient Balance/Nutrient Partition Approach," SA33
Heymsfield, SB, and Waki, M: "Body Composition in Humans: Advances in the Development of Multicompartment Chemical Models," SA97

Padh, H: "Vitamin C: Newer Insights into Its Biochemical Functions," SA65
Rosenberg, IH: "Nutritional Reviews' One-Half Century: An Appreciation," SA355
Roubenoff, R, and Kehayias, JJ: "The Meaning and Measurement of Lean Body Mass," SA163
Topping, DL: "Soluble Fiber Polysaccharides: Effects on Plasma Cholesterol and Colonic Fermentation," SA195
Wallingford, JC, and Yetley, EA: "Development of the Health Claims Regulations: The Case of Omega-3 Fatty Acids and Heart Disease," SA323
Wolf, G: "The Intracellular Vitamin A-Binding Proteins: An Overview of Their Functions," SA1
Zeitlin, M: "Nutritional Resilience in a Hostile Environment: Positive Deviance in Child Nutrition," SA259
SPECIAL REPORTS
Committee on Evaluation of the Safety of Fishery Products, "Seafood Safety," SR369
Field, JO: "Famine: A Perspective for the Nutrition Community," SR144
Klein, GL: "The Aluminum Content of Parenteral Solutions: Current Status," SR74
National Institutes of Health: "Bovine Somatotropin and the Safety of Cows' Milk: National Institutes of Health Technology Assessment Conference Statement," SR227

Tillotson, JE: "United States Nutrition Labeling and Education Act of 1990," SR273
World Health Organization, "Diet, Nutrition and the Prevention of chronic Diseases: A Report of the WHO Study Group on Diet, Nutrition and Prevention of Noncommunicable Diseases," SR291
STARVATION
lean body mass depletion in, SA163
STELLATE CELLS
receptors for retinol-binding protein, 218
STEROIDS
excretion enhanced by soluble fiber, SA195
SUPPLEMENTATION
calcium, effect on bone loss in postmenopausal women, 184
lipotropes, prolongation of survival of leukemic mice by, 30
selenium, content in toenails correlated with, 28
vitamin A, as contributor to liver disease, 309

TEA
effect on iron and aluminum bioavailability in rats, 287
TESTES
selenium levels in, 62
TETRA-β-CARBOLINES
mutagen formation and nitrosation of, 379
TOENAILS
selenium content of, 28
TOTAL BODY FAT
estimated from potassium-40 content, CL109
TOTAL BODY NITROGEN
as compartment in body composition model, SA163
TOTAL BODY POTASSIUM
as compartment in body composition model, SA97, SA163
lean body mass measured by, CL109
TOTAL BODY WATER
as compartment in body composition models, SA97, SA163
TOTAL PARENTERAL NUTRITION
as short-course treatment for malnutrition in inflammatory bowel disease, 317
development of vitamin K deficiency during, CL179
effect on patient with limited respiratory reserve, NC112
TRABECULAR BONE
effect of calcium supplementation on loss of, in postmenopausal women, 184
trans-FATTY ACIDS
serum cholesterol levels and, 57
TRANSCOBALAMIN
role in vitamin B_{12} uptake in HeLa cells, CL13
TRANSFERRIN GENE
iron modulation of, 221
TRANSFERRIN RECEPTOR
maternal transferrin iron stores regulates placental expression of, 345
role in release of iron from transferrin, 343
TRAUMA PATIENTS
metabolism in obese and nonobese, 213
TRIGLYCERIDES
medium-chain, role of carnitine in metabolism and utilization of, 243
uptake of into adipocytes, 84
TRYPTOPHAN
formation of tetra-β-carbolines from, 379
TYPE 1 IODOTHYRONINE DEIODINASE
selenocysteine amino acid in, 247

UROLITHIASIS
vitamin A deficiency and, 249

VASCULAR ENDOTHELIUM
functions of, 241
VITAMIN A
absorption of components of, by the elderly, 116
3,4-didehydroretinoic acid as morphogenic metabolite of, 22
effect of dietary levels on blood levels of retinoic acids, 283
iatrogenic liver disease from, 309
intracellular binding proteins of, SA1
role in transcription of osteocalcin gene, 308
VITAMIN A DEFICIENCY
urinary stone formation and, 249
VITAMIN B_6 DEFICIENCY
in mothers and infants, behavioral consequences of, 312
VITAMIN B_{12}
cell uptake and binding of, CL13
VITAMIN B_{12} DEFICIENCY
role of fermentable fibers in, 119
VITAMIN C
biochemical functions of, SA65
stereospecific effect of, on collagen synthesis, 26
VITAMIN D
effect on calcium transport and intracellular concentration, 306
nongenomic effects of, 306

role in calcium-binding protein expression, 191
role in transcription of osteocalcin gene, 308
receptors, effect of aging on, CL179
VITAMIN D_3
importance in intestinal calcium absorption, CL302
VITAMIN K
functions of, CL179
VITAMIN K DEFICIENCY
total parenteral nutrition and development of, CL179
WEIGHT CONTROL PROGRAMS
acquisition of eating disorders after, NC16
WEIGHT/HEIGHT RATIO
compared with fat content determined by potassium-40 measurements, CL109
WEIGHT LOSS
as consequence of radiation therapy for oral carcinoma, NC322
ZINC
dietary fiber intake and decreased absorption of, CL204
role in binding affinity of human growth hormone to prolactin receptor protein, 381
